Dear Parent

Maths Revision Guides

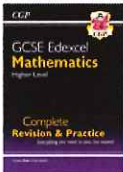

As you may be aware your son will be sitting the Linear Edexcel Mathematics Papers in May and June.

It is vital that your son is thinking about revision for his exams. It would be beneficial for your son to be revising at home at least once a week for at least 30 minutes from now onwards to prepare him and put him in an excellent position for the examinations.

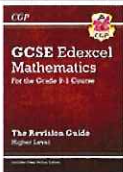

CGP's revision guides and work booklets are an excellent resource for home study and are specific to the exam board that will be writing your sons examination. If ordered through the school they are received at a discounted rate, see details below:
