3 October 2017

Dear Parent

National Mathematics Competition

On Friday 3 November Northfleet Technology College will be competing in a National Mathematics Competition hosted by SUMDOG. Your son requested and has been allocated a SUMDOG account and as a result we would like to invite him to be a member of our team. The competition takes place at school during the first two periods and any work missed in his timetabled lessons will be available to him so that he can catch up where necessary. The competition is held in the media suites in zone 1, however an email will be sent to his learning coach to remind him.

The SUMDOG programme allows students to compete at their own level and be awarded points for participation and questions answered. The programme has proved in the past to increase levels of mathematical ability and confidence. If your son has not yet logged onto his account he will need to do so before the competition so that the computer can generate questions equal to his ability. If your son doesn't log on before the competition the questions he will be given may be at the wrong level for him. If your son has lost or forgotten his login details he can obtain them from his learning coach or by emailing me.

I hope you will join us in encouraging your son to do his best and enjoy the experience of representing his school.

Yours faithfully

Janet Siggers
Dyslexia/Dyscalculia Tutor
Irlen Screener
