

19 September 2018

Dear Parent

Key Stage 3 Mathematics Information Evening
Thursday 27 September 2018 in Zone 1 between 6:30pm – 8:00pm

We are working to update and move the teaching and learning of mathematics forward at NTC, and would like to invite you to this evening which we hope will be enjoyable and informative. Our aim is to introduce you to our mastery of maths curriculum. We will also provide you with information about how you can support your child and develop their mathematical skills no matter what their starting point, or yours. Finally we will introduce you to our learning beyond the classroom programmes which we have designed to challenge the mathematical thinking skills of all students.

There will be a brief introduction followed by four 10 minute sessions on the following:

- Maths Mastery Programme and Key Mathematics Principles
- Timetable Rockstars – how to access and use this online programme to support improving times tables.
- Mathswatch and using your gap analysis – How to access and use this online programme to address gaps in your sons learning.
- Learning Beyond – How we set homework and what the expectations are.

There will then be time at the end for you to ask questions and speak to your sons Mathematics teacher.

We are very keen to develop a strong three way dialogue between the staff, the parents and the students and look forward to seeing you at the meeting accompanied by your child.

Please return the reply slip below to myself, and if you have any further questions regarding any of the information provided then please do not hesitate to contact me:

Direct email akhazzanh@ntc.kent.sch.uk

Yours sincerely

Mr H Akhazzan
Progress Manager
