

## Online Learning

As we prepare for all possible eventualities in the coming weeks, we wanted to remind all students of the range of online platforms that are available for them to access from home, should the need arise. The standard way for teachers to provide work for students will be through *Google Classroom* and students should refer to this in the first instance.

Below, outlines some of the general and subject specific platforms and applications that are available, which require a personal login (username formats shown where appropriate). If students have forgotten their password, they can contact their *Learning Coach* who will be able to help them reset.

All these platforms (and others that don't require passwords) can be found on the *Student Launchpad*, which has a link on the main page of our school website as shown here.

## Whole School

The following platforms are all accessed using the normal login details that a student would use if accessing a school laptop (i.e. the username would be in the format *15smitha*)

- **Google Apps** (e.g. Google Classroom, Google Drive, etc)
- **Office365** (e.g. Outlook for Email, PowerPoint, Word, Excel, etc)
- **EduLink One** (e.g. Messaging)

## Science

### Educake

Username: *First name, Initial of Surname, four digit code (e.g. andrews0010)*

### Tassomai

Username: *Student's school email address (e.g. 15smitha@ntc.kent.sch.uk)*

---

## Maths

[flexassessment.com](https://flexassessment.com)

Username: *First name, initial of surname (e.g. andrews)*

### Mathswatch

Username: *Year you started at NTC, First name, Surname, @ntc (i.e. 15AndrewSmith@ntc)*

## PiXL Maths App

School ID: *NF389*

Username: *SurnameF (SmithA)*

---

## Drama

### Digital Theatre Plus

Username: *ntckent*

---

## Geography

### Seneca [www.senecalearning.com](http://www.senecalearning.com)

Username: *Student's school email address (i.e. 15smitha@ntc.kent.sch.uk)*

---

## MFL

### [www.linguascope.com](http://www.linguascope.com)

Username: *ntcmfl*
