Dear Parents

Coronavirus

I would like to begin by thanking the parents who supported the school yesterday.

The school believes in working closely with parents, at all times. The decision to send last night's message was taken because rumours had already started about the situation. Therefore, it was important to inform you of the facts to prevent miscommunication and further alarm.

It is important to note that **no student** at NTC has a diagnosis of coronavirus (COVID 19) nor have they been in direct contact with an infected person.

The school has taken advice and it has been confirmed that the additional precautionary cleaning measures already in place, alongside the personal hygiene recommendations, are sufficient.

If we have any other concerns, you will updated accordingly.

Yours sincerely

Jane Partridge
Headteacher
